

abdomen: gas  
abdomen: burning sensation  
abdomen: cramps  
abdominal pain  
Abortion or Miscarriage  
Abscess inject site  
ache: bones  
ache: joints  
ache: joints and muscles  
aches: muscle  
aches: whole body  
acid reflux  
skin: Acne  
Agitation  
Allerg react  
allergies  
Alopecia (hair loss)  
alpha intrusion (this is one form of sleep disorder) and nocturnal myoclonus (restless leg syndrome)  
Amblyopia (vision problem)  
Amnesia  
anal fissure  
Anaphylac (severe acute allergic reaction)  
blood: Anemia  
Angioedema  
Anorexia  
mood: Anxiety  
appetite: loss  
arm: hot to the touch  
heart: Arrhythmia  
Arthralgia  
arthritis  
Arthrosis  
Asthenia  
asthma  
Ataxia  
Autoinocul face\* these terms refer to spreading a live virus from the arm to another body part, relevant to smallpox vaccine but not anthrax  
Autoinocul nose  
Autoinocul other  
balance: dizzy upon standing  
balance: falling down  
balance: dizzy spells  
balance: vertigo and dizziness  
balance: dizziness  
balance: vertigo

balance: problems  
bilateral conjunctivitis  
bladder problems  
vision: Blind  
blisters in mouth, face, neck and back  
bloating  
blood pressure: varies  
blood pressure: high  
blood clot (thrombosis)  
blood blisters on inside of mouth  
blood: in stool  
blood count: strange numbers  
blood count: low  
blood count: low red  
blood count: low white  
blood: high CPK levels in blood (relates to abnormal muscle enzyme level, would move to muscle section)  
blood: high cholesterol  
blood pressure: spikes and drops  
Blood dyscrasia  
bowel, small intestine, colon and heart: damage (separate heart from GI tract)  
bowels: irritable  
Bradycardia, sinus  
Bradycardia  
respiratory: Bronchitis  
bumps on hands  
bursitis  
Cachexia  
heart: Cardiomegaly  
heart: Cardiovascular dis  
cellulitis  
chills  
Chills fever  
Cholelithiasis (gallstones)  
chronic keratopathy (eyes)  
cold and flu-like symptoms  
concentration: difficulty  
concentration: loss of  
concentration: trouble  
neurological: Confusion  
Conjunctivitis  
consciousness: blackouts  
consciousness: loss of  
Consciousness: passing out  
Constip -- same as below  
constipation

Convuls grand mal  
Convuls  
convulsions  
coordination: problems  
costochondritis  
cough  
Cough inc (INC??)  
Cramps leg  
Creatine pk inc (CPK Increase—again elevation in muscle enzyme)  
cyst: eye  
cyst: scalp  
cyst: kidney  
cyst: right ovary  
cyst: scalp which increased in size  
Cyst  
cysts: painful  
cysts: multiplied and increased in size  
death  
Dehydration  
delerium episodes  
Delirium  
Depression  
Dermatitis, exfoliative  
dermatitis  
Diabetes mellitus  
diarrhea: bloody  
diarrhea  
diarrhea: constant  
digestive: gagging (means nausea)  
digestive: gastric ulcer  
digestive: gastroparesis (paralysis of the stomach)  
digestive: indigestion  
digestive: nausea, constant  
digestive: nausea, throwing up  
digestive: nausea  
digestive: problems  
Diplopia (double vision)  
disorder of hepatobiliary system and pancreas  
Balance: Dizziness  
Dry mouth  
Dysarthria  
Dysmenorrhea  
Dysphagia  
Dyspnea  
Ecchymosis  
heart: ECG or EKG abnormal

skin:Eczema vaccinatum  
skin: Eczema  
Edema  
Edema face  
Edema inject site  
Edema larynx  
Edema periph  
Edema tongue  
Edema genital  
Effusion, pleural  
Effusion, pericardial  
Electrolyte abnormality  
elevated (what?? In) spinal fluid  
Encephalitis  
Encephalopathy  
endurance: loss  
energy: loss  
energy: low levels  
energy: declining  
Enzyme abnorm  
Eosinophilia  
Epistaxis  
erythema nodosum  
Erythema multiforme  
exhaustion  
Eye disease  
eyes: loss of ability to produce tears (aka sicca syndrome or Sjogren's syndrome, autoimmune)  
Eyes gaze upward (due to stroke or extraocular muscle paralysis)  
fatigue: growing  
fatigue: constant  
fatigue: muscle  
fatigue and pain  
fatigue: chronic  
fatigue  
feeling sluggish and hung over when no alcohol consumed  
female problems: hemorrhaging  
female problems: unable to conceive  
fever  
Fibro myocard (myocardial fibrosis would be an unusual diagnosis)  
fibromyalgia  
flares in mouth and in eyes (???)  
Flatulence (passing gas)  
Flu syndrome  
flu-like symptoms  
Gait abnorm

Gastritis  
Gastroenteritis  
Generalized vaccinia  
Glossitis (inflamed tongue)  
growth on adrenal gland  
hair: turned white, then brown.  
hair: loss of facial  
hair: falling out  
hair: loss  
head: shakes  
head: rushes  
headache: uncontrollable thump on left side of head, evolving into headache  
headaches: migraines  
headaches: migraines, cluster  
headaches  
headaches: continuous  
hearing: ringing in ears  
hearing: poor tolerance for loud noises  
heart: murmur  
heart: rapid pulse rate  
heart: heart attack  
heart: palpitations  
heart: angina  
Hemorrhage, vaginal  
Hem (???)  
Hem eye (???hematoma, hemorrhage?)  
Hematemesis (vomiting blood)  
Hematuria  
Hemoptysis  
hemorrhoids  
Herpes simplex  
Herpes zoster  
Hiccup  
hot flashes  
Hyperglycemia  
Hypertension  
Hypertonia (increased reflexes due to neuro disease)  
Hypertrophy (enlargement of anything, need to specify of what)  
Hyperventilation  
hypogonadism  
Hypokinesia (moving slowly)  
Hypotension  
Hypotens post (probably drop in BP right after receiving vaccination, expected)  
Hypothyroidism  
Hypoventilation  
Hysn inject site (??)

immune system: problems  
immune system: weakened  
immune system: autoimmune disorder.  
Impotence  
Incontinence, urinary  
heart: Infarct myocardial (heart attack)  
Infection, viral  
Infect (??)  
Infection, fungal  
infection: pockets of infection in throat and mouth  
infections: staphylococcal  
infections: chronic to include ear and sinus  
infections: constant  
Inflam inject site  
Inject site papule  
Inject site pustule  
Inject site react  
Inject site indurat  
Inject site scab  
Inject site vesicle  
sleep: Insomnia  
joint: stiffness  
Joint dis  
joints: fluid in  
joints: ache  
joints: bleeding in  
joints: multiple surgeries on various joints  
Kidney failure  
Lab test abnorm (??)  
Lacrimation dis (tears—probably sicca syndrome)  
Laryngismus  
Laryngitis  
lesion: heart and lungs (need details)  
lesion: corner of right eye (lesion means anything abnormal)  
lesion: on hypothalmus gland (brain lesion)  
lesion: brain  
Leukocytosis (increased white blood cells)  
Leukoderma  
libido: loss  
Libido decrease  
lightheadedness  
liver: abnormal  
Liver failure  
Liver, functional abnormality  
lump in right groin  
Lung dis

lymph nodes on right trachea (?? Does not make sense)  
Lymphadenopathy  
Lymphangitis  
Lymphocytosis  
Malaise  
Mass inject site  
memory: difficulty  
memory: failure  
memory: loss  
memory: bad  
memory: loss with dizziness  
memory: trouble remembering recent information  
memory: short-term memory loss  
memory: increase in forgetfulness  
Menopause  
Menstrual abnormalities  
menstruation: loss  
neurological: reading comprehension difficulty  
neurological: slowed responses  
neurological: unable to perform multiple tasks simultaneously  
neurological: slowness  
neurological: disorientation  
neurological: depression  
neurological: confusion  
neurological: staring spells (likely minor seizures)  
headache: Migraine  
mood swings  
mood: anxious  
mood: angry  
mood: irritable  
Mucous membrane disorder (very nonspecific)  
Myalgia  
Myasthenia (this is a VAERS term that has no medical meaning, they use it for muscle  
Fatigue)  
Myocarditis  
nasal: heavy drainage  
nasal: nose bleeds  
nasal: runny nose  
Nausea  
Nausea vomiting and diarrhea  
Nausea vomit  
Neck rigid  
Nervousness (anxiety)  
Neuralgia  
Neuritis, optic  
Neuritis

Neurosis

numbness and tingling: fingers

numbness and tingling: arms and down one side of body.

numbness: and tingling

numbness: leg

numbness and tingling: arm

numbness and tingling: in arms

numbness: from neck down

Otitis media (middle ear infection)

pain: legs

pain: lower back

pain: right shoulder, hips and leg

pain: right hip and chest

pain: groin

pain: back

pain: knees and hips

pain: gout-like in right foot

pain: lower back

pain: joint and muscle pain and stiffness

pain: throughout his body

pain: joint pain in right hip

pain: akin to endometriosis.

pain: at injection site

pain: shins

pain: soft tissue pain

pain: stomach

pain: bone and joint

pain: in right thumb radiating up through forearm

pain: muscle and joint

pain: joint

pain and stiffness: muscle

pain: myofascial

pain: swelling and migrating pain

pain: rib cage

pain: near liver and where gall bladder was before it was removed

pain: leg

pain: arthritic

Pain ear

Pain eye

Pain flank

Pain

Pain inject site

Pain neck

Pain pelvic

Pain abdo

Pain back

Pain chest  
pain: chest  
pains: in feet, like electrical shocks  
pains: charlie horse  
(I do not think the pain location is of great interest)  
Pallor  
Palpitations  
paralysis that lasted for one day on one side of her body  
Paralysis, extraocular  
Paralysis, facial  
Paresthesia

Pericarditis  
Pharyngitis  
Photophobia  
Pleural dis  
Pneumonia  
Pregn unintend (but was there a birth defect or miscarriage?)  
Pruritus  
Quadriplegia  
rash:  
Rash macular papular  
Rash vesicular bullous  
Rash pustular  
rashes: burn-type on entire body  
Reaction unevaluated  
rectal bleeding  
reflux  
respiratory: shortness of breath  
respiratory: respiratory distress causing a tracheotomy  
respiratory: breathing: difficulty, only with exertion  
respiratory: problems  
respiratory: upper airway obstruction  
respiratory: respiratory arrest  
Rhinitis  
rotating hot and cold spells  
Satellite lesion (usually refers to a rash)  
Secondary transmission to a nonvaccinee  
seizure-like spasms  
seizures  
sensitivity to chemicals (aka multiple chemical sensitivity)  
shaking (tremors)  
Sinusitis  
skin: cysts developed  
skin itching:  
skin: Eczema

skin: itching, dry and flaky skin  
skin: hives  
skin, itching  
skin: sores down right side of body  
skin: spontaneous burning sensation on the skin  
skin: infection with rash  
skin discoloration  
skin: on feet cracking open and bleeding  
skin: infected wounds  
skin: bluish or grayish color with sick episodes  
skin: scratches developing into cellulitis  
skin: sores on skin,  
skin: nodules under the skin  
skin: sensitivity  
skin: infections  
skin: sores  
skin: canker sores  
skin: rashes  
skin: pustule sores on scalp  
skin: sores in throat and mouth  
skin: papules, filled with a clear fluid, when papules broke fluid burned skin and was extremely painful  
skin: pain  
skin: turns a funny color at times  
Skin striae  
Skin discoloration

sleep: insomnia  
sleep: need stimulants to stay awake  
sleep: problems

sleep: feel not refreshed upon waking up

sleep: too much sleeping  
sleep: shifting sleep patterns  
sleep: unable to sleep flat without medication

sneezing (???)  
Somnolence  
Speech disorder (neurologic problem??)  
Stevens johnson syndrome  
stomach: problems

Stomatitis aphthous

Stomatitis ulcer  
strength: loss  
strength: loss of muscular

Stupor  
suicide attempt

sweating  
sweats: night sweats  
sweats: inappropriately sweating  
sweats: inappropriately hot

swelling: joints  
swelling: feet and ankles  
swollen: glands  
swollen lump in neck below ear behind jaw line

Syncope  
Tachycardia  
Taste loss of  
Tendon disorder  
TENS needed for pain control  
testicular: failure  
testicular: shrunken testicles

Thinking abnormality  
thirst: increased

throat: swelling and closing

Thrombosis, pulmonary  
Embolus, pulmonary  
thyroid: hyperthyroid  
thyroid: change in pre-existing condition  
thyroid: problems  
thyroid: failure  
Tinnitus

tiredness

tremors

tumor: spinal  
Twitching or jerking

Ulcer skin

Urinary retention

Urinary frequency

Urticaria

Uveitis

Vascular disease, peripheral

Vasodilation

verbal skills: unable to comprehend words

verbal skills: stuttering

verbal skills: trouble finding words

verbal skills: struggle for words

Vertigo

vision: poor tolerance for bright lights

vision: peripheral vision does not have normal width (ie tunnel vision)

vision problems

vision: loss due to detached retina

vision: photophobia

vision: spotted

vision: blurred

vision: tunnel vision

Visual field defect

Voice alteration

Vomiting

walking: trouble

walking: difficulty

weakness

weight gain

weight loss
